each Provincial Council

Adapting to Climate Change: Facing the Consequence

2nd - 22nd July 2019

Closing date for application : 22 April 2019

TICA : Thailand International Cooperation Agency
Is a national focal point for Thailand's international development cooperation. TICA was established in 2004 to realize Thailand's aspiration to be a contributor of development cooperation. Believing that global challenges are best addressed by international cooperation and global partnership, today we continue to strengthen our contribution to achieve global development agenda through various capacity-building and human resources development programmes. In response to the recent changes in the global landscape of development cooperation, especially through the concept of South-South and Triangular Cooperation, TICA continues to realign our focuses in order to deliver Thailand's commitment to be a relevant partner in global agendas including the 2030 Agenda for Sustainable Development.

AITC : Annual International Training Course
was initiated in 1991 as a framework in providing short-term training for developing partners. Today, the AITC remains one of TICA's flagship programmes. It offers not only a training experience, but also a platform in exchanging ideas and establishing professional network among participants from across the developing world. Aiming at sharing Thailand's best practices and experience to the world, the AITC training courses focus on development topics of our expertise currently categorized under five themes namely; "Sufficiency Economy Philosophy" or SEP, Food Security, Public Health, Climate Change, and Other topics related to Sustainable Development Goals (SDGs).

**Faculty of Environment and Resources Studies
Mahidol University**

Faculty of Environment and Resources Studies, Mahidol University was founded in 1978 as a successor of the environment education, research project and certainly reaches its aim for sustainable development. The faculty's vision is to be a renowned institution of Asia in cultivating sustainable nature and society and main mission is to develop teaching, research and academic service qualities, and to cultivate environmental ethics in order to reach sustainable environment and society.

AITC Theme : Climate Change

This training course falls under the AITC theme - "Climate Change". We believed that Climate Change is one of the most serious and pressing global challenges with momentous consequences if left unattended. Therefore, strengthening resilience and adaptive capacity to climate-related hazards and natural disasters is crucial to sustainable future. The AITC courses under the theme "Climate Change" are part of Thailand's commitment to work with the international community to achieve SDG goal # 13 on Climate Action.

Course Objectives

This training course aims at sharing Thailand's experiences in adaptation context of human dimension of global climate change. At the end of this course, participants are expected to;

- Understand concept of the methods and tools available for conducting knowledge regarding the adaptation context of the human dimension of global climate change.
- Be able to exchange basic knowledge of application of the adaptation to the human system, the human environment system, and the natural resource system upon which societies depend among participants.

Course Methodology

Training methodologies to be used during this training course include;

- Lecture
- Workshop discussion
- Field visit

Assignment and Evaluation

- In-class participation.
- Advance assignment - Submission and presentation of "Country Report" which include information regarding the current situation on climate change issues, country policy related to climate change planning, vulnerability, impact, adaptation and the best practices related to climate change in participant's respective country.
- Attendance - Participants are required to attend all activities organized during the course. TICA reserves the rights to revoke its fellowship offered or take appropriate action in case a participant is in attendance of less than 90 percent of the training hours.

Course Outline

This training course covers focuses on the adaptation context of human dimensions to climate change, adaptation tools and technique adapted to tackle the climate change in several sectors. The topics of training are such as;

- Overview of the adaptation context of human dimensions of global change
