## **I. Program Description**

### **i. Basic Information**

#### **1. Description**

The Ministry of Commerce of the People's Republic of China's Project for Assisting Developing Countries in Degree Education was initiated in 2008 with funds from China's foreign aid. It is specifically designed to cultivate high-level, compound and applied talents in politics, economy and trade, diplomacy, agriculture, science, education, culture, health, energy, transportation, public administration and other fields for the recipient countries, providing intellectual support for their economic and social development. The project includes one-year master's degree programs, two-year master's degree programs and three-year doctoral degree programs. It mainly sponsors in-service government officials, researchers from academic institutions, and mid-to-senior-level managers in relevant fields from the recipient countries to pursue master's and doctoral degrees in China in English. Due to the relatively short duration of the programs, applicants must have obtained a bachelor's degree in advance and have certain working experience in the corresponding fields to understand the teaching and learning content promptly and fully. Applicants are also required to be in good health to adapt to the high-intensity study and eventually obtain the degree.

Playing an increasing role in the economic and trade cooperation with China and growth of the recipient countries, these programs are taken seriously by the governments of these countries.

Yunnan University of Finance and Economics undertook this program from 2015 under the approval of the Ministry of Commerce of PRC. It now plans to start the enrollment this year. This program is the only master program majoring in project management in the degree programs this year. This major is affiliated with the engineering management degree, which is divided into four research directions to foster talents in trade field: international project contracting and project management, international investment project management, cross-border logistics engineering project management
